

Are you looking for a quality Miniature Schnauzer?

The Miniature Schnauzer you take into your home will be a member of your family for many years. A responsible breeder will take the time to try to match you with an animal suitable for you and

your family and to provide you with the information you need to have a happy, healthy pet. Our club strongly recommends that you take the time to visit some dog shows where Miniature Schnauzers are being shown, to meet and get to know a number of breeders, and become knowledgeable **about the breed** before buying a Miniature Schnauzer. **Read More.**

Please note that any contracts (including applications) are between you, the purchaser, and the breeder. Cactus State Miniature Schnauzer Club has no enforcement authority. If you have any concerns or expectations that are not spelled out in your contract, make sure that they are added in writing, before signing the contract.

Below is a list of CSMSC members in good standing who breed Miniature Schnauzers. They take extra steps to screen for genetic diseases and support the clubs Code Of Ethics for responsible breeding.
